Of East Anglian origin: shown at the British Museum in 1995 and sold with accompanying correspondence

67 *

KINGS OF EAST ANGLIA, Eadmund (855-870), Penny, Eadmund, EA[DMVN]D REX AN around A, *reverse* EADMUND M[ONE] around cross pattée with pellet in each angle, 0.94gm (cf. Pagan, BNJ 1982, p.75; cf. BMC 56; N. 456; S. 954). *A large fragment, but extremely fine and rare (£50-100)*

The Bristol mint first opened in Cnut's Quatrefoil type

69 *

CNUT, Penny, Pointed Helmet type, Exeter, Ælfwine, ÆLFWINE ON ECXE, trefoil-headed sceptre, 1.02gm (Dolley & Ingold IIIb; Brettell 137-8, different dies; N. 787; S. 1158). *Slightly crimped and obverse weakly struck, about very fine, toned (£90-110)*

70 *

EDWARD VI (1547-1553), Third Period, Halfcrown, 1551, m.m. y, horse with plume on head, 22.73gm (N. 1934; S. 2479). *Apparently a striking in lead from the official dies, obverse fine, reverse very fine, very rare and unusual (£100-200)*

The apparent purpose of this piece is unclear, unless it be some kind of die trial; the reverse appears to have been carefully centred in the making. One suspects the heavy weight of the coin would have mitigated against it circulating contemporaneously

76 *

CHARLES I (1625-1649), Pattern Halfcrown, by Nicholas Briot, king seated on horseback l., rev. oval shield, crowned, and lightly garnished, dividing 16 28 (N. 2673; SCBI, Brooker 1258). *Worn, and very flat in places but very rare (£50-60)*

The status of this interesting piece is unclear. The 17th century numismatist, John Evelyn (*A Discourse of Medals antient and modern*, London, 1697) considered it to be a medal commemorating the proposed second La Rochelle Expedition. The date – the year of the expedition and some three years before the introduction of Briot's coinage – would tend to favour such a conclusion. The Latin legends O REX DA FACILEM CVRSM (Grant O King a prosperous course) and ATOVE AVDACIBVS ANNVE COEPTIS (And favour bold undertakings) also, on the face of it, lend support to this view. Nevertheless, this cannot be considered conclusive evidence that the piece is medallic: the legends, while appropriate for a medal of the La Rochelle expedition, are of a sufficiently vague nature to be not entirely out of keeping for a coin. Furthermore, although medals struck in anticipation of military success – rather than after victory has been achieved – are not unknown, it is not a particularly common occurrence. Moreover, unlike some uncertain pieces by Briot or others, the design of the present piece is certainly coin-like and although the weight of the relatively unworn Brooker coin is a little high (15.44 gms), it is not so much so as to rule out the possibility that the piece is indeed a projected design for a coin.

165

GEORGE V, Pattern Octorino or Eightpence, 1913, by Reginald Huth, struck by John Pinches, in copper (ESC 1481A). *Good extremely fine and extremely rare (£120-150)*

No records exist of how many of these curious and charmingly called Octorinos Reginald Huth ordered from Pinches. ESC assigns them a rarity of R4 (eleven to twenty). In relation to Huth's other issues these figures seem high. Forrer quotes mintage figures for some of his earlier coins, and there are some additional notes in the Huth sale catalogue (Sotheby, 1927), based on his tickets. If Forrer's figures are to be believed and we have no solid reasons for questioning them (he was a contemporary of Huth and they were probably based on personal conversation or correspondence) off-metal strikes were made for Huth in very small numbers indeed. Unless the Octorinos and Eightpences were an exception one can tentatively suppose that these too were struck in similar numbers in metals other than silver, perhaps ten or less.

The example in the Norweb sale (SCA 56, November, 1986) sold for £220

Little has been published concerning the extremely rare 20th century proofs struck by the Royal Mint from the middle years of the 20th century until the 1960's. Coincraft's *Standard Catalogue*, to the great credit of the authors, lists those specimens known to them – the first British catalogue to do so. The only other survey of these issues we are aware of is an article in the journal of the American Numismatic Association, *The Numismatist*, – "Proof Record Coins struck by the Royal Mint 1922-1964" by Harry E. Spencer, December, 1983.

It seems the practice of striking proofs on a regular basis was introduced by the deputy master, Robert E. Johnson, as a way of preserving for posterity a few examples of all the coins struck by the Royal Mint in the finest possible state – including those made for British Commonwealth and foreign countries. That some were sent to museums is certain: the British Museum has a large number, as does the Fitzwilliam at Cambridge, and the Ashmolean at Oxford. Whether others were sent to museums, mints, or other government agencies outside the British Isles is not known at present but may well have been the case on at least a number of occasions. In some circumstances, it is also likely specimens were given to important visitors to the Mint or other interested parties, but the rarity of the proofs leads to the firm conclusion that this occurred very infrequently. The field cries out for further research, but what is certain is that examples not in institutional collections and available to collectors is very small indeed. See also lots 171, 188, 189, 190,

NEW ZEALAND, George VI, Royal Mint Pattern, for the Royal Visit silver Crown of 1949, by Paget, head of George VI to L, reverse MODEL in centre, edge plain, 39mm, 31 gms (cf Noble Numismatics sale 46, 16-17, November, 1994, lot 760). *A brilliant and exceptionally well struck frosted proof in virtually flawless state, unusual streaky but pleasing toning, excessively rare (£600-800)*

The description of this great rarity in the Noble sale was as follows "George VI, Proof or Pattern for the Royal Visit Crown of 1949, in silver, plain edge, reverse MODEL across plain field, (30.65 gms, 38.5mm) by Hugh Paget. *A brilliant and frosted proof, beautifully struck possibly from the master die, FDC and possibly unique.*" The coin sold for Australian \$4,100 against an estimate of \$2,500.

That this coin is for New Zealand is incontestable. Although some other Commonwealth countries, such as Southern Rhodesia and Mauritius, used the title 'King Emperor', these employed the Percy Metcalf rather than the Paget head and in any event there is no evidence whatsoever crown-size coins were planned at this time for these territories.

Clearly, the decision not to proceed with this obverse must be associated with the the Independence of India in 1947, and the subsequent modifications to the obverse legends of all British and British Commonwealth coins.

Important information for buyers

Absentee Bids

If instructed we will execute bids and advise intending purchasers. No charge is made for this service. Lots will always be bought as cheaply as is allowed by such other bids and reserves as are on our books. In the event of identical bids, the earliest will take precedence. Always indicate a 'top limit'—the amount to which you would bid if you were attending the auction yourself. 'Buy' or unlimited bids will not be accepted, **all bids must be confirmed in writing or by fax prior to the date of the sale.**

Advice to Bidders

Further advice to bidders and purchasers follows the bidding slip included with this catalogue.

Buyers' Premium

A buyers' premium of 11.75% on the hammer price inclusive of VAT is payable by the buyers of all lots. (Banknotes 17.625% on the hammer price inclusive of VAT.)

Pre-sale Estimates

The pre-sale estimates are intended as a guide for prospective purchasers. Any bid between the listed figures would, in our opinion, offer a fair chance of success. However all lots, depending on the degree of competition, can realise prices either above or below the listed estimates.

Methods of Payment

Payment should preferably be made by telegraphic transfer direct to Dix & Webb's account at:—

Royal Bank of Scotland
London Piccadilly Circus Branch
48 Haymarket
London SW1Y 4SE
Sort Code 16-00-83
Account No. 00118446

Please include your name, account number and invoice number with the instructions to the bank.

Alternative methods of payment which will enable immediate clearance of purchases include cash, bankers drafts and credit cards (Access and Visa). Although personal and company cheques are accepted, buyers are advised

that property will not be released until such cheques have cleared. Purchases will be despatched as soon as possible upon receipt of your written despatch instructions, and full payment for the lots you have bought. Despatch will be at the buyer's expense. Estimates and advice on all methods of despatch can be provided upon request.

All credit card payments are subject to an additional charge of 2%.

Insurance cover will be arranged unless otherwise specified and will be at the buyer's expense.

Methods of despatch

Air Post. Providing your purchase does not exceed the size and weight stipulated by the postal authorities and we feel that the item is of a suitable nature, Dix & Webb will arrange for the packing and despatch of lots containing numerous or extremely large volumes in order to ascertain the most economical method of despatch.

Surface Post. Despatch as for Air Post, often at a cheaper rate but, Surface Post takes considerably longer to arrive at the required destination.

Clearance of purchases

Buyers who have not established a credit arrangement with Dix & Webb will be asked to pay for their purchases when they wish to take possession of them. It is regretted that Dix & Webb cannot take Banker's references over the telephone at the time of clearance and that buyers cannot take possession of their purchases until cheques are cleared.

If buyers wish to pay for their purchases by cheques they are urged to arrange clearance of their cheques well in advance of the sale by supplying appropriate Bankers' references.

Buyers will be requested to supply a reasonable means of identification at the time of payment.

Lots will only be released to the purchaser or his authorised representative if full payment has been received by Dix & Webb together with settlement of any removal, handling and storage charges due.
